

▪ **LEARNING** ▪ **UNDERSTANDING** ▪ **APPLYING** ▪

Education is the key to our future.
Decisive here is understanding what you have learned and being able to apply it practically.

With this in mind, NORDUM has been providing national and international training since 1995.
In addition to expertise and qualifications, we offer various courses worldwide on a variety of topics:

- **water management** ▪ **waste management** ▪ **soil protection** ▪ **industrial environmental protection** ▪
- **environmental planning** ▪ **project management** ▪ **quality management** ▪
- **environmental analysis** ▪ **food analysis** ▪
- **renewable energies** ▪

Based on our know-how and many years of cooperation with experts, we can successfully point to training courses with partners in Eastern Europe, the Arab world, as well as Brazil, China and Vietnam.

Tailored to your needs, we provide training,
courses and e-learning solutions to your questions.
