

▪ **LEARN** ▪ **UNDERSTAND** ▪ **EDUCATE** ▪

Education is the key of our personal and professional future. Important, in each educational work, is to give the participants the ability to use all new gained knowledge in practice.

Since 1995, the Nordum Akademie is offering national and international challenging programs on various topics, with the emphasis on a modern and practice-oriented further education. Beside courses in Germany to get an expertise or qualification, our company offers different workshops to following topics worldwide:

- **water management** ▪ **waste management** ▪ **soil protection** ▪ **industrial environmental protection** ▪
- **environmental planning** ▪ **project management** ▪ **quality management** ▪
- **environmental analysis** ▪ **food analysis** ▪
- **renewable energies** ▪

Due to our long time activity as an educational vendor, we worked together with experts from Eastern Europe, the Arab World, Brazil as well as with China and Vietnam.

Tailored entirely to your requirements, Nordum is able to offer you various workshops and e-Learning-solutions.

STATE APPROVED ESTABLISHMENT OF FURTHER EDUCATION
